PROFESSIONAL SUMMARY

Highly skilled and passionate Full Stack Software Developer based in Lagos, Nigeria, with a strong foundation in both frontend and backend technologies. Adept at developing web and mobile applications using modern frameworks such as React.js, Next.js, Node.js, Express, and React-Native. Proficient in designing scalable systems, writing clean, maintainable code, and optimizing user experience. A proactive innovator who enjoys problem-solving and coding, with extensive experience in building ecommerce platforms, social apps, and mobile apps.

TECHNICAL SKILLS

- **Frontend**:
  React.js, React Native, Next.js, Gatsby, Tailwind CSS, Styled Components, Vanilla CSS, HTML5, JavaScript (ES6+), TypeScript
- **Backend**:
  Node.js, Express.js, RESTful API, GraphQL
- **Database**:
  NoSQL (MongoDB), SQL (Supabase, Firebase)
- **Tools & Platforms**:
  Git, GitHub, Docker, Firebase, Supabase, Heroku, Netlify, Vercel and Render
- **Testing**:
  Jest, Mocha, Cypress
- **Version Control**:
  Git, GitHub
- **Deployment & CI/CD**:
  Docker, Jenkins, GitHub Actions, Heroku, Netlify

PROFESSIONAL EXPERIENCE

Full Stack Developer
Freelance / Contract
Lagos, Nigeria
January 2022 – Present

- Developed a range of ecommerce platforms, social media applications, and mobile apps

using **React.js**, **Node.js**, and **React Native**, **Next.js, JavaScript, TypeScript** handling both frontend and backend implementations.

- Collaborated with designers and other developers to ensure seamless user experiences across web and mobile interfaces.
- Integrated third-party APIs (e.g., payment gateways, social media logins) to extend app functionality.
- Used **Tailwind CSS** and **Styled Components** to ensure responsive, modern UIs that conform to best practices in user experience (UX) design.
- Utilized **MongoDB** and **Firebase** to handle large-scale data storage and ensure smooth and optimized database operations.
- Managed version control using **Git** and **GitHub**, and coordinated development efforts through **Agile/Scrum** methodologies.
- Successfully deployed applications using **Heroku**, **Netlify**, and **Vercel** to streamline hosting processes.
- Proactively addressed and fixed bugs, resulting in improved app performance and user satisfaction.

PROJECTS

1. Ecommerce Platform

- **Technologies**: React.js, Node.js, MongoDB, Express, Tailwind CSS
- Built a scalable ecommerce platform from scratch that includes features like user authentication, shopping cart functionality, order management, payment integration, and an admin dashboard.
- Implemented a **REST API** for product management, user authentication, and order processing.
- Enhanced user experience by implementing responsive design using **Tailwind CSS** and efficient state management through **Redux**.

2. Social Media Application

- **Technologies**: React Native, Firebase, Node.js
- Developed a cross-platform social media application using **React Native** with features such as user profiles, photo and video sharing, real-time messaging, and notifications.
- Integrated Firebase for real-time database and authentication, enabling instant user interaction and data sync across devices.

3. Mobile Task Management App

- **Technologies**: React Native, TypeScript, MongoDB
- Created a mobile task management app to help users organize their daily tasks, set reminders, and track productivity.
- Used **React Native** for mobile-first design and implemented **MongoDB** to store user data, ensuring secure and efficient data handling.

4. Blogging Platform

- **Technologies**: Next.js, Gatsby.js, GraphQL, MongoDB
- Built a performance-optimized blogging platform with **Gatsby.js**, offering fast loading times and seamless content management.

- Implemented **GraphQL** queries for retrieving and displaying blog posts and comments from a **MongoDB** database.

EDUCATION

Professional Training in FullStack Web Development
Anchorsoft Academy
2023 – 2024

- Completed with a strong focus on software engineering principles, algorithms, and web development.
- Completed several academic projects involving full-stack development, utilizing technologies like **JavaScript**, **HTML**, **React, Node.js** and **CSS**.

CERTIFICATIONS

- **Full-Stack Web Development Certification** – Anchorsoft Academy (2023 - 2024)
- **React Native Specialization** – StackReign (April, 2024)
- **JavaScript and Modern ES6** – Anchorsoft Academy (2023 - 2024)
- **MongoDB for Developers** – Anchorsoft Academy (2023 - 2024)

PERSONAL PROJECTS & OPEN SOURCE

- Contributed to open-source projects, improving the functionality and user experience of web and mobile applications.
- Actively maintain a GitHub repository featuring demo projects, code snippets, and tutorials on **React.js**, **Node.js**, and **JavaScript, Next**.js, **Gatsby**, **React-Native.**

SOFT SKILLS

- **Problem-Solving**: Proven ability to troubleshoot and resolve complex software issues efficiently, maintaining functionality and performance under pressure.
- **Team Collaboration**: Experience working in cross-functional teams, leveraging Agile and Scrum methodologies to enhance collaboration, productivity, and project outcomes.
- **Communication**: Strong verbal and written communication skills, able to convey technical concepts clearly to both technical and non-technical stakeholders.
- **Adaptability**: Ability to quickly learn and integrate new technologies into existing workflows, always staying up-to-date with industry best practices.
- **Innovation**: Passionate about identifying and creating innovative solutions to streamline processes, improve user experience, and enhance product functionality.

HOBBIES AND INTERESTS

- **Open-Source Contribution**: Passionate about contributing to open-source projects, particularly in the fields of web development, full-stack solutions, and frontend design.

- **Learning New Technologies**: Constantly exploring new programming languages, frameworks, and tools to stay current with industry trends and innovations.

LANGUAGES

- **English**: Fluent (written and spoken)
- **Yoruba**: Native proficiency
